

Extremely extreme magnetic pole laws

- ① A world-class student who researches everything further
- ② Based on ①, he is devoted to continuing to grow, which may be world-class
- ③ He plans and executes new experiences efficiently, which may be world-class
- ④ A welfare recipient in Japan, I'm glad to have been born in Japan

(comparison calculation formula)

①②③>>>>>>>>>>>>>>>>>> . . . ④

I would say that I am a hard worker (a demon of persistence)

It's just a guess, but...

Even if a major earthquake were to occur, once safety was confirmed, they would no doubt continue with their daily routines without making a fuss.

similar works

① Bomb behind

However, they are only paying attention to the flying debris from the bomb explosion, not the blast.

② Law of magnetic poles

That's all.
