

Sum(Knowledge,experience,physical,strength,mental strength,expertise,demonic determination)
VS
power of money

As I said before, he suddenly started barking...
Non-human animals (mainly dogs and crows)
take some kind of action the moment they sense my presence...

In the case of dogs, there has never been a time when they didn't take action...

Due to their original animal instincts,
there may be instinctive behavior towards things that are different from normal humans...

Humans are "thinking reeds" (Socrates), so they act based on their knowledge and experience...

Or, if they are a person who has gone beyond the realm of humanity through tremendous effort,
they might exude an aura that is out of the ordinary...

I have a feeling that we will be seeing examples like the one below in the future...

- ①Using a car (money)
- ② Keep running for free, and keep a certain distance while attacking until the capital of ① runs out.

(A side note)

You often see well-built foreign women on the streets, but they are not just fat, but well-built... like me.

Average weight of American women is 74kg
Average weight of American men is 88kg

Data shows that, apart from the Netherlands (known as the Netherlands in countries other than Japan), Europe is

Apparently, the average height is not as high as in the United States.

The tallest country in the world is the Netherlands.

Average Women: 170cm

Average Men: 183cm

the tallest female volleyball player in the world is 203cm

the highest reaching height is over 310cm
